**Cyber Com begins partnership with Concur Japan, Ltd., a leading company in cloud-based travel and expense management**

**Supporting SAP Concur® implementation in Tohoku and Hokuriku regions, leveraging successful experience in internal digital transformation**

Cyber Com Co., Ltd. (President: Seto Arai; hereinafter “Cyber Com”) announces a new partnership with Concur Japan, Ltd. (Headquarters: Chiyoda-ku, Tokyo; President: Sachio Hashimoto; hereinafter “Concur Japan”), a leading provider of cloud-based travel and expense management solutions.

Announcement

With the implementation of the Electronic Books Maintenance Act and the invoice system, organizations in Japan increasingly seek to digitize their indirect expense management to enhance productivity and optimize workflows.

Cyber Com, having successfully implemented SAP Concur as part of its own digital transformation initiative to improve indirect expense management efficiency, will now leverage this experience to provide comprehensive SAP Concur services to clients. Our end-to-end solution encompasses implementation, external systems integration, outsourced testing, and post-deployment support and training, ensuring seamless transition to digital indirect expense management. Through our regional office network, Cyber Com will particularly focus on supporting digital transformation initiatives in the Tohoku and Hokuriku regions.

Statement from Sachio Hashimoto, President of Concur Japan, Ltd.

We are very pleased to establish this alliance with Cyber Com.

Our strengths lie in over 30 years of expertise in travel and expense management, along with extensive big data resources.

By combining these with SAP’s advanced technologies, including AI, we are working toward our vision of a “world without expense reports.” We believe this will not only fundamentally transform employee workstyles but also drive innovation in expense management, further enhancing companies’ operational foundations.

Through this partnership, we look forward to working alongside Cyber Com to strengthen the competitive edge of Japanese businesses.

Statement from Seto Arai, President of Cyber Com Co., Ltd.

We are pleased to enter into this partnership with Concur Japan.

Following our successful internal implementation of SAP Concur this fiscal year, we are excited to apply this experience to advance our clients' digital transformation initiatives across Japan.

This partnership with Concur Japan aligns with our long-term vision of contributing to society through Cyber Com technology, furthering our commitment to fostering social prosperity.

■About Concur Japan, Ltd.

Founded in October 2010, Concur Japan is the Japanese branch of SAP Concur, the world's leading cloud provider of travel and expense management solutions. Concur offers a suite of cloud services designed to streamline indirect expense management and transform employee workstyles, including "Concur Expense (expense management)," "Concur Travel (travel management)," and "Concur Invoice (invoice management)."
