**Cyber Com actively advances development in the APAC region through a collaboration with  
E-SPIN Group of Companies**

Cyber Com signs strategic partnership with E-SPIN Group of Companies

Cyber Com Co., Ltd. (President: Seto Arai, hereafter “Cyber Com”) is pleased to announce a strategic partnership with E-SPIN Group of Companies (Co-Founder and Director: Vincent Lim), an ICT solutions provider with extensive operations across the Asia-Pacific region.

Announcement

Following a meeting with E-SPIN in April 2024, Cyber Com has formalized the partnership with a Memorandum of Understanding (MOU), establishing a strategic alliance with E-SPIN. Through this collaboration, Cyber Com will provide clients in the APAC region with comprehensive IT services, including consulting, system implementation, operations, and maintenance, aimed at enhancing clients’ operational efficiency and business growth. This partnership enables Cyber Com to deliver new value and expand services not only to clients in Japan but also to international customers.

Statement from Vincent Lim, Co-Founder and Director of E-SPIN Group of Companies

E-SPIN Group has consistently strived to provide exceptional services and a wide range of innovative, future-ready solutions to our clients and partners. We believe our strategic partnership with Cyber Com represents a significant milestone in the ICT sector for both companies. By combining E-SPIN Group’s extensive expertise in cybersecurity and IT infrastructure management with Cyber Com’s cutting-edge capabilities in software development and systems integration, we aim to deliver comprehensive solutions encompassing IT consulting, system implementation, operations, and maintenance. Japan is renowned for its dedication to quality and its “Kaizen” philosophy of continuous improvement, the principles we are excited to incorporate into our service offerings. Through this partnership, clients throughout the region will gain easy access to an expanded range of systems integration and software development solutions, complementing our existing portfolio.

Statement from Seto Arai, President of Cyber Com Co., Ltd.

Cyber Com specializes in developing and delivering communications, embedded control, and business systems to clients across diverse industries, primarily in Japan. We have established ourselves as a comprehensive solutions provider, with particular strength in cloud-based infrastructure deployment and total systems support. Having celebrated our 45th anniversary last year, we have built enduring client relationships through our commitment to quality and timely delivery. We are delighted that this strategic partnership with E-SPIN Group presents an opportunity to deliver new value to international clients, and we look forward to engaging with E-SPIN Group’s extensive client network.

■About E-SPIN Group of Companies

E-SPIN Group is a distributor of enterprise IT solutions and a leading international trading partner, delivering best-in-class, comprehensive solutions from global technology partners. With extensive in-house expertise in consulting, distribution and trading, integration, and support services, E-SPIN provides end-to-end IT package solutions to corporate, government, and military institutions. E-SPIN serves as a regional hub for business operations across Hong Kong, Macau, China, Malaysia, Singapore, Thailand, Indonesia, the Philippines, Vietnam, Cambodia, Myanmar, and other countries in Southeast Asia and Greater China. Operating through entities including E-SPIN International Ltd, E-SPIN International Pte Ltd, and E-SPIN Sdn Bhd, E-SPIN Group has headquarters in Hong Kong, Singapore, and Kuala Lumpur. Our solutions and services portfolio is continuously developed and shared through a network of local representatives and reseller partners across key regional markets.
